

Below is the list of “Todo” task which every group member was supposed to do before the final date “Date”.

Date	Todo
26/3/2021	Looks for pros and cons between the chosen algorithms.
16/4/2021	Try implementing chosen algorithms in the previous meeting in the bomberman game framework
23/4/2021	Try implementing the new approaches in the minesweeper game. Just a basic running example would work
29/4/2021	Produce the results on 200 games for the trained agent.
30/4/2021	Everyone will write their corresponding parts for the paper. On the call we will review it and submit it.
